phase where the stakes are small to later tactics such as bluffing, flops, scare cards, playing shorthanded, loose games, and endgame play.

The first years of the poker boom were fueled by the interest in no-limit hold 'em tournaments. Recently, however, players have been gravitating to another, even more complex form of hold 'em - no-limit cash games. Harrington on Cash Games: Volume II continues where Volume I left off. In sections on turn and river play, Harrington explains why these are the most important streets in no-limit hold 'em, and shows how to decide when to bet or check, when to call or fold, and when to commit all your chips. In later sections, Harrington shows how to play a looser and more aggressive style, how to make the transition from online to live games, and how to extract the maximum profit from very low-stakes games. Volume II concludes with an interview with Bobby Hoff, considered by many the best no-limit cash game player of all times, who shares some of his secrets and insights.

Creating Games offers a comprehensive overview of the technology, content, and mechanics of game design. It emphasizes the broad view of a games team and teaches you enough about your teammates' areas so that you can work effectively with them. The authors have included many worksheets and exercises to help get your small indie team off the ground.

book, which teaches you all the basic concepts and principles in the game. It beats the older backgammon theory books by a mile. It starts out softly, but don't let this fool you! The book is full of insights from a true expert. The philosophy is a thorough and well structured learning, which leaves you no gaps in your game comprehension, as well as bringing new theory to the backgammon literature, for instance "the value-equation" and probability tables on jumping primes. It is very easy to read even for beginners. The purpose of the book is to connect the basic theory with the advanced theory. All earlier backgammon books tends to focus on just one of these categories. Since publication in Denmark early 2013, this book is now owned by roughly half of the members of the Danish Backgammon Federation, the worlds largest backgammon federation. When writing this book, Marc was ranked frst in the Danish rating system. In 2014 Marc won his frst "Grand Slam", the prestigious international tournament: Nordic Open in Copenhagen. Reviews: "It's my humble opinion, that this is a must-read for everyone who wants to take his game to another level. The book is highly informative, easy to read and packed with educational positions. I've been privileged to know Marc for many years, and he is currently the best backgammon tutor in the world. Don't waste this formidable chance, buy this book right away!"- Sander Lylloff, the best backgammon player in the world. "Tremendous all-round book which suits backgammon players of all levels. It presents the concepts in a sharp but still educational way. The book has numerous new approaches to the facets of the game, that can be very complex. It appeals to new, as well as more experienced players. I'm positive that everybody can obtain new knowledge and inspiration. Read it!"-

Karsten Bredahl, Super Grand Master and double winner of Nordic Open. "Marc has truly succeeded in writing a book, which starts from the bottom and ends on a very high level, without the usual gaps you can encounter. It is a solid book that everybody can benefit from, regardless of experience. The examples and explanations are top notch."- Peter Hallberg, backgammon world champion 2004.
