Now I see something very different, now I see a landscape of ghosts from a time forgotten. I see our hills stripped bare of the forests that once thrived upon them, their wildlife desecrated and reduced to living in the margins of the land where they can seek shelter from the hand of man. This is dystopian landscape, as if destroyed by aliens, its inhabitants exing out their existence as refugees from a holocaust.

The biologist and award-winning author journeys deep inside the Amazon rainforest in this eloquent and insightful look at one of earth's last wild places. For thirty years, biologist David G. Campbell has been exploring the lush wilderness, of the western Amazon, which contains more species than ever existed anywhere on our planet. In A Land of Ghosts, Campbell takes readers on his latest venture. In Cruzeiro do Sul, 2,800 miles from the mouth of the Amazon, Campbell collects three old friends: Arito, a caiman hunter turned paleontologist; Tarzan, a street urchin brought up in a bordello; and Pimentel, a master canoe pilot. Heading further into the rainforest, they survey every living woody plant they can find. The land is so rich that an area of less than fifty acres contains three times as many tree species as all of North America. Campbell knows the trees individually, and he knows the wildlife and the people as well: the recently arrived colonists with their failing farms; the Caboclos, masters of hunting, fishing, and survival; and the refugee Native Americans. These people live in a land whose original inhabitants were wiped out by centuries of disease, slavery, and genocide, taking their traditions and languages with them: a land of ghosts.

A note is left on a car windshield, an old dog dies, and Kent Nerburn finds himself back on the Lakota reservation where he traveled more than a decade before with a tribal elder named Dan. The touching, funny, and haunting journey that ensues goes deep into reservation boarding-school mysteries, the dark confines of sweat lodges, and isolated Native homesteads far back in the Dakota hills in search of ghosts that have haunted Dan since childhood. In this fictionalized account of actual events, Nerburn brings the land of the northern High Plains alive and reveals the Native American way of teaching and learning with a depth that few outsiders have ever captured.

Fleeing to the jungle, he becomes a guerrilla fighter in the life-or-death struggle against the government. In desperation, he writes a letter to the Englishman he met in Mandalay. Until the end of World War II, East Prussia was the German empire's farthest eastern redoubt, a thriving and beautiful land on the southeastern coast of the Baltic Sea. Now it lives only in history and in myth. Since 1945, the territory has been divided between Poland and Russia, stretching from the border between Russia and Lithuania in the east and south, and through Poland in the west. In *Forgotten Land*, Max Egremont offers a vivid account of this region and its people through the stories of individuals who were intimately involved in and transformed by its tumultuous history, as well as accounts of his own travels and interviews he conducted along the way. *Forgotten Land* is a story of historical identity and character, told through intimate portraits of people and places. It is a unique examination of the layers of history, of the changing perceptions and myths of homeland, of virtue and of wickedness, and of how a place can still overwhelm those who left it years before.

I want to say about this book, its only imperfection is that it ended. But that might give the wrong impression: that it is a happy book, a book that makes a body feel good. It is not a happy book. I love it like I love food, I love it for what it did to me, I love it for having made me feel stronger and more sure in a nightmare world, but it is not a happy book. It is an antidote to poison. It is inoculation against pervasive, enduring disease. Like a vaccine, it is briefly painful, leaves a lingering soreness, but armors you from the inside out.\" --NPR \"Ghosts are 'the past refusing to be forgot,' says a character in this assured science-fiction debut. That's certainly the case aboard the HSS Matilda, a massive spacecraft arranged along the cruel racial divides of pre-Civil War America.\" --Toronto Star \"This novel from an exciting new voice follows Aster, who lives in the slums of a spaceship that is escorting the last survivors of humanity to a Promised Land--a journey that has taken decades so far. The vessel is segregated and cruel, and as she tries to escape, she starts discovering dark connections between her own mother's death and the fate of the ship's sovereign. Solomon has already been called a successor to Octavia Butler, rightly so.\" --Elle UK \"In *Rivers* Solomon's highly imaginative sci-fi novel *An Unkindness of Ghosts*, eccentric Aster was born into slavery on--and is trying to escape from--a brutally segregated spaceship that for generations has been trying to escort the last humans from a dying planet to a Promised Land. When she discovers clues about the circumstances of her mother's death, she also comes closer to disturbing truths about the ship and its journey.\" --Buzzfeed \"*Rivers* Solomon's debut science fiction novel is cunning, dark, and unapologetic; atmospheric and visceral; the kind of story that pulls you in and doesn't let go. Aboard the HSS Matilda, a spaceship in the future, Solomon and her characters deftly tackle race, identity, sexuality, gender, poverty, and discrimination, all with thoughtful insight and thrilling intensity. This is a difficult work that pays off; the rare kind of book that stays with you for years. You should read it now--I plan to read it again.\" --Shondaland Aster has little to offer folks in the way of rebuttal when they call her ogre and freak. She's used to the names; she only wishes there was more truth to them. If she were truly a monster, she'd be powerful enough to tear down the walls around her until nothing remains of her world. Aster lives in the lowdeck slums of the HSS Matilda, a space vessel organized much like the antebellum South. For generations, Matilda has ferried the last of humanity to a mythical Promised Land. On its way, the ship's leaders have imposed harsh moral restrictions and deep indignities on dark-skinned sharecroppers like Aster. Embroiled in a grudge with a brutal overseer, Aster learns there may be a way to improve her lot--if she's willing to sow the seeds of civil war.
