internal system via the drivers' eye gaze and for the vehicles to analyse and respond to a drivers' change in cognitive load too. New algorithms tackling micro-saccadic eye movements and the inaccuracy in eye gaze tracking for controlling on-screen pointers are presented and explored. Multimodal fusion algorithms involving eye gaze and finger tracking systems are presented and validated and important results have been obtained on gaze controlled interfaces and visual responses whilst encountering oncoming road hazards. A set of user trials to validate the algorithms involving driving simulators are also presented by the author. Exploring the Use of Eye Gaze Controlled Interfaces in Automotive Environments would of great importance to researchers and

In the middle of the night, a father is murdered, and a mother is left for dead after a brutal ax attack. Before doctors try to save the woman's life, police say she told them her son is the one who did it - even though he's attending a prestigious college over three hours away. As the boy's mother hangs on for dear life, she wakes up in the hospital with no memory of the attack, and now believes her son to be innocent of the crime. But investigators are sure they've got their man - Christopher Porco - a tall, handsome student with plenty of debt and bad grades. It's a murder that shattered a family, shook
