An all-purpose guide for automobile owners contains colour atlas maps, tire info, trailers and hitches, roadside emergencies, basic maintenance and troubleshooting info, tools, vehicle logs, and more.

This book provides a comprehensive transition from JavaScript to the .NET Framework/platform including coverage of JScript.NET (language), ASP.NET, and Windows Forms. The book will discuss the language changes to ease the developer into working with the new syntax, and then several chapters on ASP.NET will correlate the differences between the former ASP programming model and the new .NET programming model.

This book includes the thoroughly refereed proceedings of the 18th Annual RoboCup International Symposium, held in Joao Pessoa, Brazil, in July 2014. The 36 revised papers were carefully reviewed and selected from 66 submissions and include 11 champion-team papers, three special-track papers on open-source hardware and software, nine papers on the advancement of the RoboCup leagues track, and three best papers. The contributions present current research and educational activities in the field of robotics and artificial intelligence with a special focus on the interaction between robots and humans.

This book constitutes the refereed proceedings of the 4th International Conference on Interactive Theorem Proving, ITP 2013, held in Rennes, France, in July 2013. The 26 regular full papers presented together with 7 rough diamond papers, 3 invited talks, and 2 invited tutorials were carefully reviewed and selected from 66 submissions. The papers are organized in topical sections such as program verification, security, formalization of mathematics and theorem prover development.
