minimum wage law for women, had monumental consequences for all American workers. It also marked a major shift in the Court's response to President Franklin D. Roosevelt's New Deal agenda. In *Making Minimum Wage*, Helen J. Knowles tells the human story behind this historic case. *West Coast Hotel v. Parrish* pitted a Washington State hotel against a chambermaid, Elsie Parrish, who claimed that she was owed the state's minimum wage. The hotel argued that under the concept of "freedom of contract," the US Constitution allowed it to pay its female workers whatever low wages they were willing to accept. Knowles unpacks the legal complexities of the case while telling the litigants' stories. Drawing on archival and private materials, including the unpublished memoir of Elsie's lawyer, C. B. Conner, Knowles exposes the profound courage and resolve of the former chambermaid. Her book reveals

why Elsie—who, in her mid-thirties was already a grandmother—was fired from her job at the Cascadian Hotel in Wenatchee, and why she undertook the outsized risk of suing the hotel for back wages. Minimum wage laws are “not an academic question or even a legal one,” Elinore Morehouse Herrick, the New York director of the National Labor Relations Board, said in 1936. Rather, they are “a human problem.” A pioneering analysis that illuminates the life stories behind *West Coast Hotel v. Parrish* as well as the case’s impact on local, state, and national levels, *Making Minimum Wage* vividly demonstrates the fundamental truth of Morehouse Herrick’s statement.

The essentials of mergers and acquisitions (M&A) practice can best be examined from a buyer's perspective. In a corporate transaction, it is the buyer who typically faces the more substantial risks. In

many instances, legal problems exist of which the buyer must be aware before deciding to purchase the target company. The ongoing internationalization of the M&A market must also be taken into consideration. The integration of foreign concepts into local legal systems not only leads to a multitude of new questions, it also creates a challenge for any lawyer practicing in this area. Clients expect their professional advisors to handle legal problems likely to arise abroad and to communicate and cooperate efficiently with foreign counsel. The book features a collection of reports by experienced young practitioners from seventeen different jurisdictions, along with a general report for a working session organised by the Corporate Acquisitions and Joint Ventures and Tax Law Commissions of l'Association internationale des jeunes avocats (AIJA) for the AIJA Annual Congress in Lisbon in August

2002. Each national report follows the same structure as the general report, but from a local perspective. While the working session also covered tax issues (a whole other volume in itself!), this publication concentrates on such practical matters of legal risk as: powers of local authorities; determination of relevant market; conflict between antitrust authorities; time limits for negotiation and clearance; avoidance of multiple filings; standard notification clauses; protection of confidential information; and challenge of competition authority decisions. A useful introduction on warranty and indemnity (W&I) insurance offers an insider's comprehensive outline of the latest developments in this field. The practical information in this book will be of great value to any lawyer dealing with M&A transactions, not only in the countries covered but in any country where M&A transactions occur, as these reports often
