March 13, 2014. City of London Pubs: A Practical and Historical Guide was published in 1973. A charming gazetteer written by Timothy M. Richards ("a public-house manager with a keen interest in the history of pubs") and James Stevens Curl ("an architect with 'a great interest in pubs, taverns, inns and drink"), the content is both historically thorough and winningly casual as the two men catalogue the pubs of the City, which, as the cover states, "has, in fact, a higher ...

The triumphant return of a book that gave us permission to throw out the rulebook, in activities ranging from play to architecture to revolution. When this book first appeared in 1972, it was part of the spirit that would define a new architecture and design era—a new way of thinking ready to move beyond the purist doctrines and formal models of modernism. Charles Jencks and Nathan Silver's book was a manifesto for a generation that took pleasure in doing things ad hoc, using materials at hand to solve real-world problems. The implications were subversive. Turned-off citizens of the 1970s immediately adopted the book as a DIY guide. The word “adhocism” entered the vocabulary, the concept of adhocism became part of the designer's toolkit, and Adhocism became a cult classic. Now Adhocism is available again, with new texts by Jencks and Silver reflecting on the past forty years of adhocism and new illustrations demonstrating adhocism's continuing relevance. Adhocism has always been around. (Think Robinson Crusoe, making a raft and then a shelter from the wreck of his ship.) As a design principle, adhocism starts with everyday improvisations: a bottle as a candleholder, a dictionary as a doorstop, a tractor seat on wheels as a dining room chair. But it is also an undeveloped force within the way we approach almost every activity, from play to architecture to city planning to political revolution. Engagingly written, filled with pictures and examples from areas as diverse as auto mechanics and biology, Adhocism urges us to pay less attention to the rulebook and more to the real principle of how we actually do things. It declares that problems are not necessarily solved in a genius's “eureka!” moment but by trial and error, adjustment and readjustment.

Brimming with gorgeous photos and witty text, this elegant book celebrates London's most renowned and historic pubs. For centuries the pub has been an essential part of London's cultural and social fabric. This beautifully illustrated book takes readers through the doors of 25 historically and architecturally significant London pubs. Through photographs specially commissioned for this project, readers can explore these institutions—from snob screens to 400-hundred-year-old flagstone floors. Engaging texts highlight what makes each pub so special: their place in London's history, the personalities who have frequented them, the events that occurred inside, and the ways pubs have contributed phrases such as "on the wagon" and "one for the road" to the modern lexicon. This book reveals why The Lamb and Flag in Covent Garden earned the nickname the "Bucket of Blood", and features a pub that Charles Dickens described as a "great rambling queer old place". Furthermore, the book muses over the chances that Casanova paid a visit to The Dog and Duck in Soho, and uncovers the location of Charles De Gaulle's favorite wartime watering hole. These and other amusing anecdotal histories make this fascinating and luxuriously illustrated book a must-have for anyone with a love for the good old London pub.
