Many years later, after the techno-island-city of Posiedos was swallowed up by the sea, the survivors fled in a fleet of strutters and colonized the World Beneath, making technology-based colonies.

~~James Gurney — Books~~

The World Beneath is an explanation for Dinotopians surviving the saurian extinction; according to the story, most of the Earth's dinosaurs were destroyed, whilst a few hid in vast underground caverns. These few became the original Dinotopians. No one has entered the World Beneath for centuries, but Arthur intends to do so.

Four years after being shipwrecked on the island of Dinotopia, sixteen-year-old Will Denison, now a Skybax Corps pilot, explores the skies over the island while his scientist father explores the legendary caverns of the World Beneath.

The second book in Gurney's adventure series about the mysterious land of Dinotopia--the sequel to the book that spawned the successful ABC miniseries and TV show--is now available in paperback. Full color.

The third book in the popular series ventures into Dinotopia's distant past, where only Gideon Altaire and his friend Fritz can stop the evil empire of Poseidos from using its robotic technology to eradicate the peaceful dinosaurs.

After being shipwrecked and saved by dolphins, Professor Denison and his son, Will, find themselves on the island of Dinotopia where dinosaurs and humans live together peacefully.

Professor Denison and Bix, his dinosaur companion, are summoned to the forbidden empire of Chandara but, having lost their invitation, must travel penniless and in disguise through spectacular sights and memorable scenes. Includes a new afterword by the author.

In 1862, after being shipwrecked in uncharted seas, Professor Arthur Denison and his twelve-year-old son Will find themselves washed up on a strange island where people and dinosaurs live together peacefully.
