Are you a career counsellor or coach in need of a new skills set to help meet the challenges of supporting clients? This book is for you. It is the first to combine the theory & practice of CBT with career counselling, presenting cognitive & behavioural approaches to help clients think & act more effectively in challenging situations in order to obtain their goals. Providing clear, practical strategies & a wealth of materials that can be used with clients in one-to-one or group settings, the book introduces: - theory of cognitive & behavioural psychological approaches within the context of career counselling - motivational techniques to help clients succeed at interview - how to help clients make effective vocational/educational choices & excel in the workplace - professional issues i.e., assessment tools, ethical issues, evaluation - self-management, using CBT techniques on yourself. This is essential reading for trainees studying for a careers guidance qualification, as well as CBT trainees wishing to go on to career counselling. Steve Sheward is a Careers Counsellor & CBT Therapist working in the NHS. He was previously director of the Connexions Service in South London. Rhena Branch is an experienced CBT Therapist & author, teaching the MSc in RECBT at Goldsmith's University.

Foundations of Career Counseling: A Case-Based Approach is designed for students taking courses in career counseling. Additionally, a full chapter is dedicated to the career development of students seeking graduate degrees in counseling. Develop understanding of both theory and technique using in-depth, engaging case studies. Rather than simply describing career development theories, Foundations of Career Counseling: A Case-Based Approach uses seven realistic, diverse client scenarios to help students connect with the material and master career counseling content and skills. Balancing both theory and application, chapters about the career counseling process, intake interviews, and the use of tests, card sorts, and resources contain transcripts, examples, and sample assessment results from simulated sessions with these fictional clients. Suzanne Dugger's down-to-earth writing style clearly explains complex concepts in everyday language. Future counselors will develop a thorough understanding of both theory and technique pertaining to career development interventions with children and young adults as well as with adults--including specific populations such as persons with disabilities, military veterans, ex-offenders, homemakers and caretakers transitioning back into the world of work--and even themselves! Personalize learning with MyCounselingLab® MyCounselingLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

This book provides an introduction to the general landscape of group counseling by way of the idea that learning to be an effective group member is essential to becoming a group leader. Interactive scenarios place the reader right into the group, providing insights into the challenges and opportunities of participation. Each chapter explores a different stage of group work and concludes with useful suggestions and tips for having a successful experience. Throughout the book, an emphasis is placed on member development and personal growth being achieved through self-awareness, interpersonal experiences, and dynamic ways of being. Cultural diversity, ethics and confidentiality, and involvement strategies and skills are also discussed. With its unique, practical, and engaging approach, this book will be invaluable to counseling students as an excellent complement to the theory and research on group counseling.

Uses the National Career Development Association's Career Counseling Competencies, the National Career Development Guidelines for professional school counselors, and CACREP Standards as a framework for covering the knowledge areas and skills required for effective career development interventions in a diverse society.
