Part travelogue, part history, and part reflective meditation on conflict and reconciliation, Sherry Buchanan's new book offers both a personal and historical exploration of the Ho Chi Minh Trail, highlighting the critical role the Trail and the young women soldiers who helped build and defend it played in the Vietnam War. Accompanied by two travelling companions, Buchanan winds her way from Hanoi in the north to Ho Chi Minh City, formerly Saigon, in the south. Driving through the spectacular scenery of Vietnam and Laos, she encounters locations from the Truong Son mountains, the Phong Nha Caves, ancient citadels and Confucian temples to the Khmer Temple of Wat Phu at the western-most point of the Trail in Laos. Buchanan records her interactions--both scheduled and spontaneous--with those who experienced the Vietnam War firsthand, and these conversations with combatants and civilians provide new perspectives on the War. She listens to the women who defended the Trail roads against the greatest bombing campaign in modern times, walks through minefields with the demolition teams hunting for unexploded ordnance, and meets American veterans who have returned to Vietnam with an urge to "do something." Buchanan weaves informative, and often humorous, tales from her journey with excerpts from the accounts of others, situating the locations she visits in their historical and political context. On the Ho Chi Minh Trail brings together geography, history, and personal accounts to readdress the culture of indifference to the War, bringing to light the scale of the tragedy, its lasting legacies, and our memory of it.

During the Vietnam War, Time reporter Pham Xuan An befriended everyone who was anyone in Saigon, including American journalists such as David Halberstam and Neil Sheehan, the CIA's William Colby, and the legendary Colonel Edward Lansdale—not to mention the most influential members of the South Vietnamese government and army. None of them ever guessed that he was also providing strategic intelligence to Hanoi, smuggling invisible ink messages into the jungle inside egg rolls. His early reports were so accurate that General Giap joked, "We are now in the U.S. war room." In Perfect Spy, Larry Berman, who An considered his official American biographer, chronicles the extraordinary life of one of the twentieth century's most fascinating spies.

This book explores the way in which the state has become commercialised under reform as party and government officials have gone into business and considers the impact that this has had on politics within Ho Chi Minh City and Hanoi. The book charts the way in which power has been decentralised to the lower levels of the party-state but argues that the central state retains significant power. These issues are explored through a variety of case studies including the implementation of different reform policies, struggles over political and business activity, and the prosecution of two major corruption cases. Particular emphasis is placed on piecing together the myriad of informal practices which dominate business and political life in Vietnam.

Ho Chi Minh explores the life of this globally important twentieth-century figure and offers new insights into his lengthy career, including his often-forgotten involvement with British intermediaries in 1945-46 and with the United States in 1944-45. Ho was the father of his nation, a major protagonist in the Cold War and anti-colonial struggle, and the promoter of a distinctive Vietnamese form of communism. This biography charts his life from his early years and education in Europe to his establishment of the revolutionary pro-communist movement, the Viet Minh, and his subsequent rise to power. Placing important emphasis on his role as a military organizer while stressing his preference for diplomatic solutions, this book contains detailed analysis of the complex talks with France and failure to prevent the Franco-Viet Minh war in 1946. It also follows Ho's complex relationships with America, China, France, and Russia, and explores the Vietnam War and his legacy. In addition to providing extensive coverage of the 1954 Geneva Conference, the rivalry between Ho and First Secretary Le Duan, and the 1968 Tet Offensive, Ho Chi Minh is also the first English-language biography of Ho to pay close attention to his attitude to women and their role within the communist party. It is the perfect introduction for students of Vietnamese history and twentieth-century history more broadly.

This analysis of the great problems, essential tasks, principles and methods of the Vietnamese revolution was made for the 40th founding anniversary of the Indochinese Communist Party (later the Viet Nam Workers' Party). Le Duan was First Secretary of the Party at the time of original publication in 1970.

To grasp the complicated causes and consequences of the Vietnam War, one must understand the extraordinary life of Ho Chi Minh, the man generally recognized as the father of modern Vietnam. Duiker provides startling insights into Ho's true motivation, as well as into the Soviet and Chinese roles in the Vietnam War.
