~~Can EditorFor() be used to create <input type="file">?~~

The mime type is supplied by the browser and is not verified by PHP. If you use that to determine the file type, as suggested by some, you'll have the same problem of ensuring that it's not another file type masked with a different mime type. Karl's or Paul's answer is the best so far. – bmb Jan 26 '09 at 23:19

~~SEAT León Wikipedia~~

The first-generation Polo, a rebadged version of the Audi 50, was introduced in 1975 and was produced until October 1981. It is also called the Volkswagen Derby. By 1979, 500,000 Polos were produced worldwide. It shared the internal designation Typ 86 with the Audi 50.. The differences between the Audi and Volkswagen models were minor, with the Polo being cheaper and much more basic.

To Boldly Go details 26 sometimes controversial vehicles, from 1911 to present, all solving different design challenges. From the Issigonis Mini that changed design and social mores, to racers so successful they were banned from competition, from cars produced in millions, to one-offs, all created by those marching to the beat of their own drum.

Cars.

This is the fascinating story of how the Citroen SM came into being, with company politics and Maserati's involvement covered in detail. The text and pictures then follow the car's progress from its world premier at the 1970 Geneva Show until the final production models were built in July 1975. With 200 mainly color photos, full coverage of production models and a buyers guide this book is the complete Citroen SM resource.

The fifth in a series of books which chronicle in definitive depth the history of the evergreen 911, from the earliest design studies to the water-cooled cars of today. This volume looks at each 911 model and its derivative, taking in the various specials and competition cars along the way.

This book brings together all of the author's TR 2, 3, 3A, 4 & 4A expertise in one easy to use, completely updated and revised edition. Includes body, trim and mechanical restoration, left- to right- hand drive conversion, clubs, specialists and suppliers, welding and restoration techniques, and advice on which work to subcontract.

This book covers the entire history, life and times of the famous British high-performance engineering company, from its 1958 foundation by Mike Costin and Keith Duckworth, through its often-exciting and always fascinating evolution, to its expansion and worldwide success in both motorsport and high-performance road car production.

Lists the most significant writings on computer games, including works that cover recent advances in gaming and the substantial academic research that goes into devising and improving computer games.

Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system without wasting money on parts and systems that simply don't deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

Developed from several years of articles in Land Rover Monthly magazine, this manual is the most detailed package of information available for anyone thinking of restoring, rebuilding or improving a Series III Land Rover.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.
