This Handbook is designed to assist Army Commanders in taking proper immediate action when faced with a variety of legal issues that might arise during your command. The purpose of your actions should be to preserve the legal situation until you can consult with your servicing Judge Advocate. However, like most aspects of your command responsibilities, you can fail if you just wait for things to come to you. You need to be proactive in preventing problems before they occur. In the legal arena, this means establishing and enforcing high standards, ensuring your Soldiers are fully aware of those standards and properly trained to comply with them. You must also properly train your Soldiers on all Army policies and higher level command standards so that they also understand and comply with them. Soldiers must also be well-versed in the Army Values and be able to apply those values to real- world situations, which will usually keep them well within legal bounds.

Topics include:

- THE TOP TEN SITUATIONS WHERE YOU SHOULD IMMEDIATELY CONSULT YOUR SERVICING JUDGE ADVOCATE
- MILITARY JUSTICE/CRIMINAL LAW Introduction to Military Criminal Law Misconduct: Options and Duties Of The Commander Unlawful Command Influence R.C.M. 303 Preliminary Inquiry Non-Judicial Punishment, Article 15, UCMJ Article 15

- GOVERNMENT INFORMATION PRACTICES Freedom of Information Act Program Privacy Act Program
- FISCAL LAW Fiscal Law for Commanders

On Point is a study of Operation IRAQI FREEDOM (OIF) as soon after the fact as feasible. The Army leadership chartered this effort in a message to the major

commands on 30 April 2003. In his guidance, Army Chief of Staff General Eric K. Shinseki directed "a quick, thorough review that looks at the US Army's performance, assesses the role it played in the joint and coalition team, and captures the strategic, operational, and tactical lessons that should be disseminated and applied in future fights." For those of us in the Operation IRAQI FREEDOM Study Group (OIF-SG), this translated into three separate products. A "quick look" lessons-learned briefing produced in July, less than 30 days after returning from the theater. On Point-this work-is the second product and was largely completed by mid-August 2003. Finally, the most significant product is the archive of 119,000 documents, some 2,300 interviews and 69,000 photos archived with the support and assistance of the Combined Arms Research Library at Fort Leavenworth, Kansas.

This independent assessment is a comprehensive study of the strategic benefits, risks, and costs of U.S. military presence overseas. The report provides policymakers a way to evaluate the range of strategic benefits and costs that follow from revising the U.S. overseas military presence by characterizing how this presence contributes to assurance, deterrence, responsiveness, and security cooperation goals.

CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

This illustrated book that includes tables, charts, and maps primarily discusses the role of USAREUR (US Army Europe) in rearming and training the new German Army which was perhaps the Army's single greatest contribution toward maintaining security in Western Europe. Likewise, the relationship between American soldiers and their French and West German hosts evolved over time and is a critical element in telling the story of the US Army in Europe.
