Enough is enough In 2011, Amazon paid an effective tax rate of 0.5 per cent on its UK earnings of 3.35 billion. In 2013-14, Apple Australia paid around $80 million in income tax on revenue of over $6 billion. Multinational corporations have avoided trillions of dollars of tax over the past 25 years. Tax avoidance is legal, but its massive abuse by multinationals has had a devastating effect on governments around the world, and has placed an unbearable burden on individual taxpayers and on honest local competitors. Multinational corporations generate profits in around 180 countries around the world. They work hard to avoid, reduce, or delay their tax obligations for as long as possible, and they generally succeed. Sometimes they pay nothing or, at best, the percentage of their multibillion-dollar incomes that they pay in tax is a lot less than the percentage an individual worker pays. Four accounting firms -- PricewaterhouseCoopers, Ernst & Young, KPMG, and -- are the global accountants and tax advisers for the multinationals. They have been paid over $500 billion in the past 25 years to prepare annual accounts and to manage the multinationals' tax affairs. The favourite tool of the 'Big Four' accountancies to minimise tax for their multinational clients is transfer pricing: a complex and confusing array of methodologies and strategies that works to reduce tax or even avoid tax payments altogether. The Great Multinational Tax Rort explains how transfer pricing developed, and describes the strategies and tactics that the Big Four global accounting firms use on behalf of their voracious clients. Written by Martin Feil, one of the few independent experts on transfer pricing and profit repatriation by multinationals -- a former poacher turned gamekeeper -- this is a call to arms for citizens and governments to restore a fair taxation system.

In Sexuality in the Confessional: A Sacrament Profaned, Stephen Haliczer places the current debate on sex, celibacy, and the Catholic Church in a historical context by drawing upon a wealth of actual case studies and trial evidence to document how, from 1530 to 1819, sexual transgression attended the heightened significance of the Sacrament of Penance. Attempting to reassert its moral and social control over the faithful, the Counter-Reformation Church underscored the importance of communion and confession. Priests were asked to be both exemplars of celibacy and "doctors of souls," and the Spanish Inquisition was there to punish transgressors. Haliczer relates the stories of these priests as well as their penitents, using the evidence left by Inquisition trials to vividly depict sexual misconduct, during and after confession, and the punishments wayward priests were forced to undergo. In the process, he sheds new light on the Church of the period, the repressed lives of priests, and the lives of their congregations; coming to a conclusion as startling as it is timely. Based on an exhaustive investigation of Inquisition cases involving soliciting confessors as well as numerous confessors' manuals and other works, Sexuality in the Confessional makes a significant contribution to the history of sexuality, women's history, and the sociology of religion.

Text of, and commentary on, the U.N. Model Double Taxation Convention.

This open access book brings together research findings and experiences from science, policy and practice to highlight and debate the importance of nature-based solutions to climate change adaptation in urban areas. Emphasis is given to the potential of nature-based approaches to create multiple-benefits for society. The expert contributions present recommendations for creating synergies between ongoing policy processes, scientific programmes and practical implementation of climate change and nature conservation measures in global urban areas. Just as bridges connect parts of Canada together, Canadian Income Taxation: Planning and Decision Making connects tax law and its application, to business and investment transactions and decision making. The 2020-2021 Edition of Buckwold/Kitunen/Roman maintains its highly readable student friendly format and full coverage of the CPA competency map without compromising the planning content needed for professional exams. The changes to this edition continue to broaden the subject base and provide current updates, ensuring complete coverage of the taxation competencies in the 2020 Competency Map, issued in December 2019. A new online appendix covering Data Analytics as it relates to taxation has been added.

This series contains the decisions of the Court in both the English and French texts.
