Kafka on the Shore displays one of the world ' s great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

By challenging many of the assumptions, misguided presuppositions and even legends that have surrounded the legacy and reception of Franz Kafka's work during the 20th century, Howard Caygill provides us with a radical new way of reading Kafka. Kafka: In the Light of the Accident advances a unique philosophical interpretation via the pivotal theme of the accident, understood both philosophically and in a broader cultural context, that includes the philosophical and sociological basis of accident insurance and the understanding of the concepts of chance and necessity. Caygill reveals how Kafka's reception was governed by a series of accidents - from the order of Max Brod's posthumous publication of the novels and the correction of ' misprints', to many other posthumous editorial strategies. The focus on the accident casts light on the role of media in Kafka's work, particularly visual media and above all photography. By stressing the role of contingency in his authorship, Caygill also fundamentally questions the 20th century view of Kafka's work as 'kafkaesque'. Instead of a narration of domination, Kafka: In the Light of the Accident argues that Kafka's work is best read as a narration of defiance, one which affirms (often comically) the role of error and contingency in historical struggle. Kafka's defiance is situated within early 20th century radical culture, with particular emphasis lent to the roles of radical Judaism, the European socialist and feminist movements, and the subaltern histories of the United States and China.

Both Joseph K inThe Trialand K inThe Castleare victims of anonymous governing forces beyond their control. Both are atomized, estranged and rootless citizens deceived by authoritarian power. Whereas Joseph K is relentlessly hunted down for a crime that remains nameless, K ceaselessly attempts to enter the castle, and so belong somewhere. Both novels may be read as powerful allegories of totalitarian government. InAmerica, Karl Rosman experiences Oedipal and cultural isolation, and finds that " America " is never quite as real as it seems.

Through the examination of anti-psychiatric theory and literary texts, this timely and thought-provoking volume explores the possibilities of liberating our habitual patterns of perception and consciousness beyond the confines of a capitalist era. In Post-Capitalist Subjectivity in Literature and Anti-Psychiatry, Skott-Myhre asks the question, how might we be different if we didn ' t live in a capitalist society? By drawing on Marxist and post-Marxist theory, and conducting nuanced analysis of the professional writings of anti-psychiatrists including Basaglia and Laing, and the work of fiction writers Kafka and Garc í a M á rquez, the text identifies alternative conceptualizations of the self. Focusing in particular on portrayals of institutions and the family, Skott-Myhre proposes that these social systems offer new modes of reading the world and ourselves which will transform social organization and free subjectivity from dominant capitalist structures. This transdisciplinary text responds to a revitalized interest in alternatives to traditional psychology, an interest in life beyond capitalism, and the crisis in the traditional family. Post-Capitalist Subjectivity in Literature and Anti-Psychiatry will offer timely reading for graduate students, researchers, and scholars in the fields of cultural studies, psychology, philosophy, family studies, and interdisciplinary studies.

Philosophy and Kafka is a collection of original essays interrogating the relationship of literature and philosophy. The essays either discuss specific philosophical commentaries on Kafka ' s work, consider the possible relevance of certain philosophical outlooks for examining Kafka ' s writings, or examine Kafka ' s writings in terms of a specific philosophical theme, such as communication and subjectivity, language and meaning, knowledge and truth, the human/animal divide, justice, and freedom.

The field of socio-legal research has encountered three fundamental challenges over the last three decades — it has been criticized for paying insufficient attention to legal doctrine, for failing to develop a sound theoretical foundation and for not keeping pace with the effects of the increasing globalization and internationalization of law, state and society. This book examines these three challenges from a methodological standpoint. It addresses the first two by demonstrating that legal sociology has much to say about justice as a kind of social experience and has always engaged theoretically with forms of normativity, albeit on its own empirical terms rather than on legal theory ' s analytical terms. The book then explores the third challenge, a result of the changing nature of society, by highlighting the move from the industrial relations of early modernity to the post-industrial conditions of late modernity, an age dominated by information technology. It poses the question whether socio-legal research has sufficiently reassessed its own theoretical premises regarding the relationship between law, state and society, so as to grasp the new social and cultural forms of organization specific to the twenty-first century ' s global societies.

Vintage Murakami includes the opening chapter of the international bestseller Norwegian Wood; " Lieutenant Mamiya ' s Long Story: Parts I and II " from his monumental novel The Wind-Up Bird Chronicle; " Shizuko Akashi " from Underground, his non-fiction book on the Tokyo subway attack of 1995; and the short stories " Barn Burning, " " HoneyPie. " Also included, for the first time in book form, the short story, " Ice Man. "
