Overall, I enjoyed the business story and found it inspiring.

Fully Alive tells the story of an astoundingly successful young entrepreneur's immersion in Amazonian indigenous spirituality, its life-changing impact on him, and how he integrated the lessons he learned to build a successful, socially responsible company, live a purposeful life, and make a difference in the world. Building a start-up is like being thrust into the middle of the Amazon rainforest: living every day on

the edge of your comfort zone, vulnerable to the unexpected challenges constantly being thrown your way, and constantly shifting to meet daily demands and do everything and anything you can to survive, let alone thrive. Vulnerable, raw, and deeply transparent, Fully Alive reveals powerful tools and lessons that can teach all of us how to grow toward and beyond our personal edges, no matter our circumstances. Tyler Gage shares his spiritual adventures and the business savvy that helped him create RUNA, a pioneering organization that weaves together the seemingly divergent worlds of Amazonian traditions and modern business, demonstrating how we can dig deeper to bring greater meaning and purpose to our personal and professional pursuits. From suburban youth to immersion in the Amazon to entrepreneurial success, Tyler's journey clearly shows that passion and opportunity can be found in the most unexpected places. Captivated by a rare Amazonian tea leaf called guayusa that had never been commercially produced, Tyler started RUNA to partner with the indigenous people of Ecuador to share its energy and its message with the world. Using the spiritual teachings, lessons, and healing traditions of the Amazon as his guide, Tyler built RUNA from a scrappy start-up into a thriving, multimillion-dollar company that has become one of the fastest-growing beverage companies in the United States. With the help of investors such as Channing Tatum, Leonardo DiCaprio, and Olivia Wilde, RUNA has created a sustainable source of income for more than 3,000 farming families in Ecuador who sustainably grow guayusa in the rainforest. Simultaneously, RUNA has built a rapidly scaling nonprofit organization that is working to create a new future for trade in the Amazon based on respectful exchange and healing, not exploitation and greed. Practical tools and lessons are woven throughout the story of Gage's successes and failures, offering guidance on how to relate to obstacles as teachers and how to accomplish our personal and professional goals in the often uncertain circumstances we find ourselves in.

Approved by the FDA in 2005 as the first drug with a race-specific indication on its label, BiDil was touted as a pathbreaking therapy to treat heart failure in black patients. Kahn reveals that, at the most basic level, BiDil became racial through legal maneuvering and commercial pressure as much as through medical understandings of how the drug worked. He examines the legal and calls for a more reasoned approach to using race in biomedical research and practice.

The amazing story of what Inc. magazine called "the coolest little startup in America." Tom Szaky dropped out of Princeton a decade ago to found TerraCycle, a company that makes the nonrecyclable recyclable. TerraCycle is now at the forefront of the eco-capitalist movement, partnering with more than 35 million people in twenty countries in the collection of waste and transforming that waste into useful products. Creating trash cans from chip bags and plastic benches from cigarette butts, TerraCycle has redefined recycling. Revolution in a Bottle is a rollicking tale of entrepreneurial adventure and an essential guide to creating a company that's good for people, good for profits, and good for the planet. Since Revolution in a Bottle was first published in 2009, TerraCycle has grown dramatically from a small company offering worm poop in a soda bottle to a pioneer of recycling worldwide. This completely revised and expanded edition continues the story of this incredible company.

Why not be the one to discover them?

The contour Coca-Cola bottle is the most recognized package created by man. It has been called an international icon and one of the most significant artifacts of the twentieth century. Of everything that has been written about The Coca-Cola Company, the one error of omission has been the complete and accurate story about the creation of its famous contour bottle and the impact it has made in the world. Knowing his entire life that it was his father, Earl R. Dean, who designed the bottle, it became the author's mission to get the story told before the truth was forever lost-to set the record straight-not only for his father and his descendants, but for the millions of people all over the world who have enjoyed a romance with his bottle.

The Wilo people languished in fear of the powerful witchcraft of neighboring tribes and the capricious whims of the jungle spirits. Then they heard of a book called "God's Talk" and in desperation pleaded for a messenger - any messenger - to come and explain it to them. But they weren't counting on messengers like these.

Be careful what you wish for... When my brother, Jonah, and I travel through our mirror into the story of Aladdin, we're excited. There will be magic lamps and genies granting wishes. Right? Wrong. The genie we meet isn't QUITE as helpful as we expected. And if Aladdin's wishes don't come true, he won't get to marry the princess and live happily ever after! Now we have to: - Escape an enchanted cave - Find forty buckets of jewels - Plan a parade - Learn to fly a magic carpet Otherwise we'll run out of wishes... and never get home! Praise for Whatever After: "An uproariously funny read. The swift pace of the tale and non-stop action . . . will enchant readers from the first page." -- Kirkus Reviews "Hilarious . . . with unexpected plot twists and plenty of girl power." -- Booklist "Giddy, fizzy, hilarious fun!" -- Lauren Myracle, author of Luv Ya Bunches "Tons of fractured fairy tale fun!" -- Meg Cabot, author of Allie Finkle's Rules for Girls and The Princess Diaries "The feminist in me adored it, and the mother in me loved how my daughter would long to cuddle in close as we read together." -- Danielle Herzog, blogging for The Washington Post
