The magazine that helps career moms balance their personal and professional lives.

From the New York Times|bestselling author of The Fortune Hunter, \u201a classic true-crime tapestry\u201c (Ron Franscell, bestselling author of The Darkest Night). Andrea Yates, a suburban Houston mother of five, horrified the nation on June 20, 2001, when she dialed 911 and said, \u201cI killed my children.\u201c While her husband Rusty, a NASA engineer, was at work, Andrea filled the family bathtub with water and systematically drowned their children, ages six months to seven years. As her eldest child lay lifeless in the bathtub and the bodies of her four youngest rested in her bed, Andrea, a devoted Christian wife and former nurse, called the police to confess her sin. The investigations by the prosecutors, by the defense, and by the press delved deeper into Andrea's mind and history, revealing a disturbing web of suicidal tendencies, depression, and psychoses. While her husband struggled between his overwhelming grief and his loyalty to his incarcerated wife, an outraged nation asked one question after another: How could anyone do this? What would drive a mother to kill her children? Drawing from hundreds of hours of interviews, court testimony, and medical records, including new access to psychiatric and legal files, Breaking Point traces the story of an all-American family struggling with the darkness of a mental illness that twisted a loving mother into a killer obsessed with hellfire.

"Let go of me, you bastard!" The woman was aggressive as her gaze revealed her killing intent. This despicable man actually dared to play tricks on her!As a genius killer, the only time she had ever fallen was when she had met this damnable man next to her."Not letting go, who told you to hide my son." The man's eyes were bloodthirsty, but his actions were exceptionally gentle ...Lesser Demon who was lying beside the window opened her mouth, "Wow, this time, the new daddy I found is really fierce, qualified!"

A Smithsonian Magazine Top Ten Best Science Book of 2020 The MacArthur grant|winning \u201cErin Brockovich of Sewage\u201c tells the riveting story of the environmental justice movement that is firing up rural America, with a foreword by the renowned author of Just Mercy MacArthur \u201cgenius\u201c Catherine Coleman Flowers grew up in Lowndes County, Alabama, a place that's been called \u201cBloody Lowndes\u201c because of its violent, racist history. Once the epicenter of the voting rights struggle, today it's Ground Zero for a new movement that is Flowers's life's work. It's a fight to ensure human dignity through a right most Americans take for granted: basic sanitation. Too many people, especially the rural poor, lack an affordable means of disposing cleanly of the waste from their toilets, and, as a consequence, live amid filth. Flowers calls this America's dirty secret. In this powerful book she tells the story of systemic class, racial, and geographic prejudice that foster Third World conditions, not just in Alabama, but across America, in Appalachia, Central California, coastal Florida, Alaska, the urban Midwest, and on Native American reservations in the West. Flowers's book is the inspiring story of the evolution of an activist, from country girl to student civil rights organizer to environmental justice champion at Bryan Stevenson's Equal Justice Initiative. It shows how sanitation is becoming too big a problem to ignore as climate change brings sewage to more backyards, and not only those of poor minorities.
