The actor shares a heartfelt " collection of humorous essays that explore his myriad identities: Indian, Muslim, British, and American " (The Boston Globe). " My father moved our family to the United States because of a word. It was a word whose meaning fascinated him. It was a singularly American word, a fat word, a word that could only be spoken with decadent pride. That word was . . . Brunch! " The beauty of America, " he would say, " is they have so much food, that between breakfast and lunch they have to stop and eat again. " " —from " International House of Patel " If you ' re an Indo-Muslim-British-American actor who has spent more time in bars than mosques over the past few decades, turns out it ' s a little tough to explain who you are or where you are from. In No Land ' s Man Aasif Mandvi explores this and other conundrums through stories about his family, ambition, desire, and culture that range from dealing with his brunch-obsessed father, to being a high-school-age Michael Jackson impersonator, to joining a Bible study group in order to seduce a nice Christian girl, to improbably becoming America ' s favorite Muslim/Indian/Arab/Brown/Doctor correspondent on The Daily Show with Jon Stewart. This is a book filled with passion, discovery, and humor. Mandvi hilariously and poignantly describes a journey that will resonate with anyone who has had to navigate his or her way in the murky space between lands. Or anyone who really loves brunch. " Best Comedy Books of 2014 " selection by The Washington Post Praise for No Land ' s Man " I was enthralled . . . Mandvi writes beautifully and comedically about his life, with wonderful dialogue and revealing detail, reminiscent of David Sedaris. " —Jonathan Ames, author of Wake Up, Sir! " It always bothered me that Aasif was more than merely funny—he ' s also a great actor. Now I ' ve learned he ' s an amazing storyteller as well, and I am furious . . . but also grateful. Aasif ' s movement between cultures and genres is what makes him and his story singularly funny, poignant, and essential. " —John Hodgman, author of The Areas of My Expertise and More Information Than You Require " Aasif is my favorite Indo-Muslim-British-American Daily Show correspondent ever. I loved No Land ' s Man! " —Jim Gaffigan, author of Dad Is Fat and Food: A Love Story " A lighthearted but heartfelt portrait of Mandvi ' s childhood and his struggles to come to terms with his rather complicated life. " —The Boston Globe

After his father is accused of murder, combat veteran and Special Agent John Puller must investigate his past and learn the truth about his mother in this New York Times bestselling thriller--but someone hiding in the shadows wants revenge. Two men. Thirty years. John Puller's mother, Jackie, vanished thirty years ago from Fort Monroe, Virginia, when Puller was just a boy. Paul Rogers has been in prison for ten years. But twenty years before that, he was at Fort Monroe. One night three decades ago, Puller's and Rogers' worlds collided with devastating results, and the truth has been buried ever since. Until now. Military investigators, armed with a letter from a friend of Jackie's, arrive in the hospital room of Puller's father—a legendary three-star now sinking into dementia—and reveal that Puller Sr. has been accused of murdering his wife. Aided by his brother Robert Puller, an Air Force major, and Veronica Knox, who works for a shadowy U.S. intelligence organization, Puller begins a journey that will take him into his own past, to find the truth about his mother. Paul Rogers' time is running out. With the clock ticking, he begins his own journey, one that will take him across the country to the place where all his troubles began: a mysterious building on the grounds of Fort Monroe. There, thirty years ago, the man Rogers had once been vanished too, and was replaced with a monster. And now the monster wants revenge. And the only person standing in his way is John Puller.

The author of Defining the Wind details his efforts to retrace the footsteps of Odysseus from Troy to Ithaca as recorded in Homer's great epic The Odyssey, following the Greek hero on his journey around the Mediterranean to discover why this ancient tale has continued to resonate with Western readers for millennia. 1918: The end of the war to end all wars. The end of an era for victors and vanquished alike. When Germany launched the Ludendorf Offensives—the most massive military bombardment of World War I—they seemed certain to win. But when American troops began arriving in droves, the Allies' certain defeat became a decisive victory. No Man's Land takes us into the trenches, behind enemy lines, into military strategy sessions and through the corridors of power in London, Paris, Berlin, and Washington in a brilliant account of one of the most fateful years in Western history. Drawing on new sources—diaries, memoirs, vivid personal experiences—here is a book that for sheer excitement, drama, vigor, and emotional impact rivals the greatest novels, history marvelously told by the incomparable John Toland. "A compelling human picture...a marvelous job by a master of the big-canvas history." Business Week

Winner of the National Book Critics Circle Award for Criticism Winner of the Graywolf Press Nonfiction Prize A frank and fascinating exploration of race and racial identity Notes from No Man's Land: American Essays begins with a series of lynchings and ends with a series of apologies. Eula Biss explores race in America and her response to the topic is informed by the experiences chronicled in these essays -- teaching in a Harlem school on the morning of 9/11, reporting for an African American newspaper in San Diego, watching the aftermath of Katrina from a college town in Iowa, and settling in Chicago's most diverse neighborhood. As Biss moves across the country from New York to California to the Midwest, her essays move across time from biblical Babylon to the freedman's schools of Reconstruction to a Jim Crow mining town to post-war white flight. She brings an eclectic education to the page, drawing variously on the Eagles, Laura Ingalls Wilder, James Baldwin, Alexander Graham Bell, Joan Didion, religious pamphlets, and reality television shows. These spare, sometimes lyric essays explore the legacy of race in America, artfully revealing in intimate detail how families, schools, and neighborhoods participate in preserving racial privilege. Faced with a disturbing past and an unsettling present, Biss still remains hopeful about the possibilities of American diversity, "not the sun-shininess of it, or the quota-making politics of it, but the real complexity of it."

When NPR contributor Scott Huler made one more attempt to get through James Joyce's Ulysses, he had no idea it would launch an obsession with the book's inspiration: the ancient Greek epic The Odyssey and the lonely homebound journey of its Everyman hero, Odysseus. No-Man's Lands is Huler's funny and touching exploration of the life lessons embedded within The Odyssey, a legendary tale of wandering and longing that could be read as a veritable guidebook for middle-aged men everywhere. At age forty-four, with his first child on the way, Huler felt an instant bond with Odysseus, who fought for some twenty years against formidable difficulties to return home to his beloved wife and son. In reading The Odyssey, Huler saw the chance to experience a great vicarious adventure as well as the opportunity to assess the man he had become and embrace the imminent arrival of both middle age and parenthood. But Huler realized that it wasn't enough to simply read the words on the page—he needed to live Odysseus's odyssey, to visit the exotic destinations that make Homer's story so timeless. And so an ambitious pilgrimage was born . . . traveling the entire length of Odysseus's two-decade journey. In six months. Huler doggedly retraced Odysseus's every step, from the ancient ruins of Troy to his ultimate destination in Ithaca. On the way, he discovers the Cyclops's Sicilian cave, visits the land of the dead in Italy, ponders the lotus from a Tunisian resort, and paddles a rented kayak between Scylla and Charybdis and lives to tell the tale. He writes of how and why the lessons of The Odyssey—the perils of ambition, the emptiness of glory, the value of love and family—continue to resonate so deeply with readers thousands of years later. And as he finally closes in on Odysseus's final destination, he learns to fully appreciate what Homer has been saying all along: the greatest adventures of all are the ones that bring us home to those we love. Part travelogue, part memoir, and part critical reading of the greatest adventure epic ever written, No-Man's Lands is an extraordinary description of two journeys—one ancient, one contemporary—and reveals what The Odyssey can teach us about being better bosses, better teachers, better parents, and better people.

From the slums of London to the riches of an Edwardian country house; from the hot, dark seams of a Yorkshire coalmine to the exposed terrors of the trenches, Adam Raine's journey from boy to man is set against the backdrop of a society violently entering the modern world.

Two interwoven stories linking Jacob Todd and his grandson visiting Amsterdam for the commemoration of the Battle of Arnhem.

From South Africa in the nineteenth century to Hong Kong today, nations around the world, including the United States, have turned to guestworker programs to manage migration. These temporary labor recruitment systems represented a state-brokered compromise between employers who wanted foreign workers and those who feared rising numbers of immigrants. Unlike immigrants, guestworkers couldn't settle, bring their families, or become citizens, and they had few rights. Indeed, instead of creating a manageable form of migration, guestworker programs created an especially vulnerable class of labor. Based on a vast array of sources from U.S., Jamaican, and English archives, as well as interviews, No Man's Land tells the history of the American "H2" program, the world's second oldest guestworker program. Since World War II, the H2 program has brought hundreds of thousands of mostly Jamaican men to the United States to do some of the nation's dirtiest and most dangerous farmwork for some of its biggest and most powerful agricultural corporations, companies that had the power to import and deport workers from abroad. Jamaican guestworkers occupied a no man's land between nations, protected neither by their home government nor by the United States. The workers complained, went on strike, and sued their employers in class action lawsuits, but their protests had little impact because they could be repatriated and replaced in a matter of hours. No Man's Land puts Jamaican guestworkers' experiences in the context of the global history of this fast-growing and perilous form of labor migration.
