#26 on The Guardian's list of 100 best nonfiction books of all time, the essays explore what it means to be Black in America In an age of Black Lives Matter, James Baldwin's essays on life in Harlem, the protest novel, movies, and African Americans abroad are as powerful today as when they were first written. With films like I Am Not Your Negro and the forthcoming If Beale Street Could Talk bringing renewed interest to Baldwin's life and work, Notes of a Native Son serves as a valuable introduction. Written during the 1940s and early 1950s, when Baldwin was only in his twenties, the essays collected in Notes of a Native Son capture a view of black life and black thought at the dawn of the civil rights movement and as the movement slowly gained strength through the words of one of the most captivating essayists and foremost intellectuals of that era. Writing as an artist, activist, and social critic, Baldwin probes the complex condition of being black in America. With a keen eye, he examines everything from the significance of the protest novel to the motives and circumstances of the many black expatriates of the time, from his home in "The Harlem Ghetto" to a sobering "Journey to Atlanta." Notes of a Native Son inaugurated Baldwin as one of the leading interpreters of the dramatic social changes erupting in the United States in the twentieth century, and many of his observations have proven almost prophetic. His criticism on topics such as the paternalism of white progressives or on his own friend Richard Wright's work is pointed and unabashed. He was also one of the few writing on race at the time who addressed the issue with a powerful mixture of outrage at the gross physical and political violence against black citizens and measured understanding of their oppressors, which helped awaken a white audience to the injustices under their noses. Naturally, this combination of brazen criticism and unconventional empathy for white readers won Baldwin as much condemnation as praise. Notes is the book that established Baldwin's voice as a social critic, and it remains one of his most admired works. The essays collected here create a cohesive sketch of black America and reveal an intimate portrait of Baldwin's own search for identity as an artist, as a black man, and as an American.

Widely acclaimed as one of the finest books ever written on race and class divisions in America, this powerful novel reflects the forces of poverty, injustice, and hopelessness that continue to shape our society. Copyright © Libri GmbH. All rights reserved.

Trapped in the poverty-stricken ghetto of Chicago's South Side, a young African-American man finds release only in acts of violence.

Beyond black and white, native and alien, lies a vast and fertile field of human experience. It is here that Eric Liu, former speechwriter for President Clinton and noted political commentator, invites us to explore. In these compellingly candid essays, Liu reflects on his life as a second-generation Chinese American and reveals the shifting frames of ethnic identity. Finding himself unable to read a Chinese memorial book about his father's life, he looks critically at the cost of his own assimilation. But he casts an equally questioning eye on the effort to sustain vast racial categories like "Asian American." And as he surveys the rising anxiety about China's influence, Liu illuminates the space that Asians have always occupied in the American imagination. Reminiscent of the work of James Baldwin and its unwavering honesty, The Accidental Asian introduces a powerful and elegant voice into the discussion of what it means to be an American.

Baldwin's early essays have been described as 'an unequalled meditation on what it means to be black in America'. This rich and stimulating collection contains 'Fifth Avenue, Uptown: a Letter from Harlem', polemical pieces on the tragedies inflicted by racial segregation and a poignant account of his first journey to 'the Old Country', the southern states. Yet equally compelling are his 'Notes for a Hypothetical Novel' and personal reflections on being American, on other major artists - Ingmar Bergman and Andre Gide, Norman Mailer and Richard Wright - and on the first great conference of Negro - American writers and artists in Paris. In his introduction Baldwin describes the writer as requiring 'every ounce of stamina he can summon to attempt to look on himself and the world as they are'; his uncanny ability to do just that is proclaimed on every page of this famous book.

100 Best Non Fiction Books has its origins in the recent 2 year-long Observer serial which every week featured a work of non fiction). It is also a companion volume to McCrum's very successful 100 Best Novels published by Galileo in 2015. The list of books starts in 1611 with the King James Bible and ends in 2014 with Elizabeth Kolbert's The Sixth Extinction. And in between, on this extraordinary voyage through the written treasures of our culture we meet Pepys' Diaries, Charles Darwin's The Origin of Species, Stephen Hawking's A Brief History of Time and a whole host of additional works.

Essays discuss race relations, segregation, the role of the writer in society, and the work of Andre Gide, Richard Wright, and Norman Mailer.

P>Birmingham's history of racial violence and bigotry is the centerpiece of this intense and affecting memoir about family, society, and politics in a city still haunted by its notorious past. In 1963, Birmingham was the scene of some of the worst racial violence of the civil rights era. Police commissioner "Bull" Connor loosed dogs and turned fire hoses on black demonstrators; four young girls at Sunday school were killed when a bomb exploded in a black church; and Martin Luther King, Jr., wrote his famous letter from the Birmingham jail, defending his activism to fellow ministers. Birmingham native Paul Hemphill, disillusioned with his hometown, had left home to pursue a journalistic career, so he witnessed these historic events with the rest of the world through newspaper and television reports. "That grim old steel town," he writes, "was the most blatantly segregated city of its size in the United States of America, and most of us regarded it with the same morbid fascination that causes us to slow down and gawk at a bloody wreck on the highway." Thirty years later, Hemphill returned to Birmingham to explore the depths of change that had taken place in the decades since the violence. In this powerful memoir, he interweaves his own autobiography with the history of the city and the stories of two very different Birmingham residents: a wealthy white matron and the pastor of the city's largest black church. As he struggles to come to terms with his own conflicting feelings toward his father's attitudes, Hemphill finds ironic justice in the integration of his childhood neighborhood and a visit with the black family who moved into his family's former home.

A comprehensive compilation of Baldwin's previously published, nonfiction writings encompasses essays on America's racial divide, the social and political turbulence of his time, and his insights into the poetry of Langston Hughes and the music of Earl Hines.
