Open Arms is a worthy addition to an already-great series. The book is excellently written, with Mr. Currie's typically great characterization and action sequences. Sorilla Aida is one of my all-time favorite characters anywhere. The book is more than worthy of a five-star review, in every way but one: the story doesn't quite feel complete.

On Silver Wings is a fairly enjoyable read: it has likable characters, a serviceable  
premise (alien invasion of a newly-colonized planet) and basic respect for the laws  
of physics. It's hard not to find yourself cheering for Sergeant Aida, and some of  
the technology that the writer showcases—the smart guns and the powered armor  
in particular—have a very cool feel.

When the Colony on Hayden's world went black, a team was sent to investigate. It was supposed to be a training mission : skip in, find out the Casimir Transmitter had gone dead, report back and wait for resupply from the Fleet. By the time the only surviving member of the team made landfall, it was spectacularly clear that this wasn't a training mission. Now Sgt Sorilla Aida has a job to do. She has to gather the local survivors, recon the enemy, train a militia, and take the war right to the enemy's doorstep. Just what she trained for. De Opresso Liber

Nothing ever happens in Norway. But at least Ellie knows what to expect when she visits her grandmother: a tranquil fishing village and long, slow summer days. And maybe she'll finally get out from under the shadow of her way-too-perfect big brother, Graham, while she's there. What Ellie doesn't anticipate is Graham's infuriating best friend, Tuck, tagging along for the trip. Nor did she imagine boys going missing amid rumors of impossible kidnappings. Least of all does she expect that something powerful and ancient will awaken in her and that strange whispers will urge Ellie to claim her place among mythological warriors. Instead of peace and quiet, suddenly there's a lot for a girl from L.A. to handle on a summer sojourn in Norway! And when Graham vanishes, it's up to Ellie—and the ever-sarcastic, if undeniably alluring, Tuck—to uncover the truth about all the disappearances and thwart the nefarious plan behind them. Deadly legends, hidden identities, and tentative romance swirl together in one girl's unexpectedly epic coming-of-age.

The first novel of the Black Wings urban fantasy series, by Christina Henry, author of *Alice* and *Lost Boy*. As an Agent of Death, Madeline Black is responsible for escorting the souls of the dearly departed to the afterlife. It's a 24/7 job with a lousy benefits package. Maddy's position may come with magical abilities and an impressive wingspan, but it doesn't pay the bills. And then, there are her infuriating boss, tenant woes, and a cranky, popcorn-loving gargoyle to contend with. Things start looking up, though, when tall, dark, and handsome Gabriel Angeloscuro agrees to rent the empty apartment in Maddy's building. It's probably just a coincidence that as soon as he moves in, demons appear on the front lawn. But when an unholy monster is unleashed upon the streets of Chicago, Maddy discovers powers she never knew she possessed. Powers linked to a family legacy of tarnished halos. Powers that place her directly between the light of Heaven, and the fires of Hell...

Sarah J. Maas's sexy, richly imagined series continues with the journey of Feyre's fiery sister, Nesta. Nesta Archeron has always been prickly-proud, swift to anger, and slow to forgive. And ever since being forced into the Cauldron and becoming High Fae against her will, she's struggled to find a place for herself within the strange, deadly world she inhabits. Worse, she can't seem to move past the horrors of the war with Hybern and all she lost in it. The one person who ignites her temper more than any other is Cassian, the battle-scarred warrior whose position in Rhysand and Feyre's Night Court keeps him constantly in Nesta's orbit. But her temper isn't the only thing Cassian ignites. The fire between them is undeniable, and only burns hotter as they are forced into close quarters with each other. Meanwhile, the treacherous human queens who returned to the Continent during the last war have forged a dangerous new alliance, threatening the fragile peace that has settled over the realms. And the key to halting them might very well rely on Cassian and Nesta facing their haunting pasts. Against the sweeping backdrop of a world seared by war and plagued with uncertainty, Nesta and Cassian battle monsters from within and without as they search for acceptance-and healing-in each other's arms.

The Scourwind family legacy brought the empire to the height of its power and prosperity and defended it against all enemies. Now one man's machinations aim to shift the balance of power--with violent and devastating consequences. When the trusted General Corian launches a coup against Emperor Scourwind, he hurls the planetary kingdom into chaos. To secure his claim as ruler, Corian will need the strength of the Scourwind name behind him, and he will stop at nothing to bring under his grasp the young Scourwind heirs, twins Lydia and Brennan. Barely into adulthood, the two are thrust into the crossfire. Battling new obstacles at every turn, they eventually find refuge with Mira Delsol, pirate and former member of the elite empire forces. As the stakes rise, loyalists, mercenaries, and political opportunists rally around the heirs in a desperate bid to unseat the usurper. But if their risky gambit fails, will the empire crumble into oblivion?
