A fascinating and candid memoir about successful leadership from the former CEO of General Electric, named one of the "World's Best CEOs" three times by Barron's, and the hard-won lessons he learned from his experience leading GE immediately after 9/11, through the devastating 2008–09 financial crisis, and into an increasingly globalized world. In September 2001, Jeff Immelt replaced the most famous CEO in history, Jack Welch, at the helm of General Electric. Less than a week into his tenure, the 9/11 terrorist attacks shook the nation, and the company, to its core. GE was connected to nearly every part of the tragedy—GE-financed planes powered by GE-manufactured engines had just destroyed real estate that was insured by GE-issued policies. Facing an unprecedented situation, Immelt knew his response would set the tone for businesses everywhere that looked to GE—one of America's biggest and most-heralded corporations—for direction. No pressure. Over the next sixteen years, Immelt would lead GE through many more dire moments, from the 2008–09 Global Financial Crisis to the 2011 meltdown of Fukushima's nuclear reactors, which were designed by GE. But Immelt's biggest challenge was inherited: Welch had handed over a company that had great people, but was short on innovation. Immelt set out to change GE's focus by making it more global, more rooted in technology, and more diverse. But the stock market rarely rewarded his efforts, and GE struggled. In *Hot Seat*, Immelt offers a rigorous and raw interrogation of himself and his tenure, detailing for the first time his proudest moments and his biggest mistakes. The most crucial component of leadership, he writes, is the willingness to make decisions. But knowing what to do is a thousand times easier than knowing when to do it. Perseverance, combined with clear communication, can ensure progress, if not perfection, he says. That won't protect any CEO from second-guessing, but Immelt explains how he's pushed through even the most withering criticism: by staying focused on his team and the goals they tried to achieve. As the business world continues to be rocked by stunning economic upheaval, *Hot Seat* "takes you into the office, head, and heart of the man who became CEO of GE on the eve of 9/11, and then led the iconic behemoth for sixteen fascinating, and often turbulent, years. A handbook on leadership—and life" (Stanley A. McChrystal, General, US Army [Retired], CEO and Founder, McChrystal Group).

Have the rules of list building changed? What is the best way to make money online? The answer is simple, it is by having a mailing list of targeted and repetitive customers who buy from you over and over. You probably realize that the one thing in common all these marketing pros have in common is a mailing list of their own with a strong following. That's how these email marketers have been able to generate bursts of thousands - even tens of thousands of dollars - in short periods of time... often in just a few hours after blasting a promotion email to their lists! How would you like to have power like that at your finger tips? (LITERALLY!) Just send an e-mail to your buyers list and BOOM!

Push Button, Make Money 6 Reasons why you should focus on building a buyers list. More responsive. This is why even a small list of pure buyers can beat a sizable list of freeloaders! History of spending. These people have bought at least something online before and you know they have a credit card! Easier to sell more products. It's EASIER to sell to the same customer vs. finding a new customer and go through the cycle of convincing and persuading! That said, The trust factor is already there. The buyer already knows who you are and trusts enough to send you his money! Better class of people. From my experience, customers (especially high ticket ones) give less problems and support issues. Ironically, the ones who are trying to get hold of your time and consume your energy are those freebie seekers... stay away from them where you can! You don't need to go for the numbers. With leading autoresponders like Aweber and GetResponse charging you more per month the bigger you grow your list, you don't have to necessarily build your list into the hundreds of thousands!
