It is the wedding the world thought would never happen - two of Greece's oldest feuding families to finally unite. But the marriage is not as it seems. Alesia has been bought by Sebastian. Now all he wants is a child to bind the feuding families. Little does he know that is something Alesia would never give him.

After interviewing over 1,000 men and women, and experiencing some dating horror stories of his own, Marty Savarick decided to use his dating knowledge for the greater good to write "101 Ways to Stop Hating Dating." This hilarious book takes on the not-so hilarious topic of dating and the many pitfalls you encounter while searching for your soulmate. With the purpose of enabling readers to not only find their soulmate, but keep them, the book teaches men the best pick up line to use on a woman, which women should be avoided at all costs and why, and how to read women's body language. To figure out the often misunderstood male mind, female readers will learn the secret to making men fall in love with them and the answer to why men leave, as well as other topics on men that women have questioned for ages. "101 Ways to Stop Hating dating" provides a lighthearted approach to help people stop hating dating and start enjoying their single lives.

In OBJECT THINKING, esteemed object technologist David West contends that the mindset makes the programmer--not the tools and techniques. Delving into the history, philosophy, and even politics of object-oriented programming, West reveals how the best programmers rely on analysis and conceptualization--on thinking--rather than formal process and methods. Both provocative and pragmatic, this book gives form to what's primarily been an oral tradition among the field's revolutionary thinkers--and it illustrates specific object-behavior practices that you can adopt for true object design and superior results. Gain an in-depth understanding of. Prerequisites and principles of object thinking. Object knowledge implicit in eXtreme Programming (XP) and Agile software development. Object conceptualization and modeling. Metaphors, vocabulary, and design for object development. Learn viable techniques for: Decomposing complex domains in terms of objects. Identifying object relationships, interactions, and constraints. Relating object behavior to internal structure and implementation design. Incorporating object thinking into XP and Agile practice.
