Never before have Americans been more concerned about the moral dimensions of presidential leadership. What role should morality play in the decision making of our most powerful elected official? What did the Founders think about the significance of morality in this cherished political institution? Does the private behavior of a president influence his or her ability to lead our nation? In *The Scarlet Thread of Scandal*, eminent scholar Charles W. Dunn turns a penetrating eye to the history of presidential scandals to answer these and other pressing questions. Scandals are surely nothing new in the White House_ever since the creation of the republic, presidents have made morally questionable judgments, whether constitutional, ethical, legal, or personal. eloquent and judicious prose, Dunn chronicles the numerous controversies in presidential history, paying particular attention to their impact on the American people and public memory. The Scarlet Thread of Scandal will make all Americans think differently about past, present, and future presidents.

In Greek mythology, Ariadne held authority over the mazes and labyrinths located beneath the palace of Knossos on Crete, including the labyrinth that housed the deadly Minotaur. When Theseus came to attempt to free the people from the Minotaur, Ariadne gave Theseus a ball of red thread to mark his passage in and out of the labyrinth. The thread was the key to successfully navigating the labyrinth's many twists and turns, and Theseus ultimately confronted the Minotaur. In her teaching, Julie Tallard Johnson notes that metaphorically, we all spend our lives in a labyrinth, regularly having to face forked paths, contradictory twists and turns, and dead ends. Red thread is a rich analogy for the wisdom passed on to us from generations of spiritual teachers, and this wisdom guides us through our labyrinths. In *The Clue of the Red Thread*, Johnson, longtime student of author, teacher, and activist Parker J. Palmer, offers numerous practices and strategies for navigating what she calls the greatest adventure of our lifetime: going inward to discover who we truly are, then returning outward to blossom into a fearless and compassionate citizen, living with integrity while both keeping hold of the red thread in our own lives and moving forward to pass it on to others.

In *Muddying the Waters*, Richa Nagar uses stories, encounters, and anecdotes as well as methodological reflections, to grapple with the complexity of working through solidarities, responsibility, and ethics while involved in politically engaged scholarship. Experiences that range from the streets of Dar es Salaam to farms and development offices in North India inform discussion of the labor and politics of co-authorship, translation and genre blending in research and writing that cross multiple--and often difficult--borders, Nagar links the implicit assumptions, issues, and questions involved with scholarship and political action, and explores the epistemological risks and possibilities of creative research that brings these into intimate dialogue. Daringly self-conscious, *Muddying the Waters* reveals a politically engaged research and writer working to become "radically vulnerable," and on the ways a focus on such radical vulnerability could allow a re-imagining of collaboration that opens new avenues to collective dreaming and laboring across sociopolitical, geographical, linguistic, and institutional borders.

Pamela Shellberg shows that Luke's use of the language of "clean" and "unclean" has particular first-century medical connotations that make it especially powerful for expressing his understanding of the universal salvation prophesied by Isaiah and by Jesus. Shellberg traces how the stories of Jesus' cleansing of leprosy bodies in the Gospel become the pattern for the divine cleansing of Gentile hearts throughout Acts, and one of Luke's primary expressions of the means of God's salvation and favor through the dissolving of distinctions between Jew and Gentile.

In *Faith, Freedom, and the Future* renowned scholars discuss the ever-changing relationship between religion and politics.

For the first time the Dutch-speaking regions of the Caribbean and Suriname are brought into fruitful dialogue with another major American literature, that of the anglophone Caribbean. The results are as stimulating as they are unexpected. The editors have coordinated the work of a distinguished international team of specialists. Read separately or as a set of three volumes, the *History of Literature in the Caribbean* is designed to serve as the primary reference book in this area. The reader can follow the comparative evolution of a literary genre or plot the development of a set of historical problems under the appropriate heading for the English- or Dutch-speaking region. An extensive index to names and dates of authors and significant historical figures completes the volume. The subeditors bring to their respective specialty areas a wealth of Caribbeanist experience. Vera M. Kutzinski is Professor of English, American, and Afro-American Literature at Yale University. Her book *Sugar's Secrets: Race and The Erotics of Cuban Nationalism*, 1993, treated a crucial subject in the romance of the Caribbean nation. Ineke Phaf-Rheinberger has been very active in Latin American and Caribbean literary criticism for two decades, first at the Free University in Berlin and later at the University of Maryland. The editor of *A History of Literature in the Caribbean*, A. James Arnold, is Professor of French at the University of Virginia, where he founded the New World Studies graduate program. Over the past twenty years he has been a pioneer in the historical study of the Négritude movement and its successors in the francophone Caribbean.

"Theologian Owen Strachan makes clear, wokeness is not true justice, nor is it true Christianity. While wokeness employs biblical vocabulary and concepts, it is an alternative religion, far from Christianity in both its methods and its fruit. A potent blend of racism, paganism, and grievance, wokeness encourages 'partiality' and undermines the unifying work of the Holy Spirit. It is not simply not the Gospel; it is anti-Gospel"--
