Miller Test Prep's study guide for the TABE is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the first time! In this Test for Adult Basic Education guide, we ensure you are thoroughly prepared for this critically important test: Comprehensive review of all TABE exam sections: Language Mathematics Reading Step-by-step examples for every concept tested Practice test questions like the real exam Detailed, thorough answer key explanations

Master All Subjects on the TABE Level A Whether you hope to enter college, take a job with the government, or work for a private company, a high score on the TABE will help you reach your goal. Written by leaders in adult education, this book is designed to help you sharpen the skills you need to

succeed on all sections of the TABE. You'll discover the strategies that make learning and test-taking easier for you. And you'll learn essential skills by using familiar, everyday items, including work documents, job postings, letters, and telephone messages. This book includes:

- Practice questions just like the ones on the test--with complete explanations for every answer
- Real-life materials and examples to help you build the skills you need
- Complete coverage of all test topics, including reading, mathematics, language, and spelling
- Strategies that show you how to work smarter, not harder--and get the most out of your study time

About the Authors Phyllis Dutwin, MA, is president of Dutwin Associates, consulting with major publishers in developing books for adult students. Richard Ku, MA, has taught mathematics at the secondary level since 1985 in both private and public schools and is the author of several test-preparation books. Carol J. Altreuter, MEd, has more than two decades of diverse experience in adult education. Kathleen A. Peno, PhD, is a professor in the School of Education at the University of Rhode Island.
