"It was ocatrine, the colour of magic. It was alive and glowing and vibrant and it was the undisputed pigment of the imagination, because wherever it appeared it was a sign that mere matter was a servant of the powers of the magical mind. It was enchantment itself. But Rincewind always thought it looked a sort of greenish-purple."

The Colour of Magic, comic fantasy novel written by English author Terry Pratchett and published in 1983. It was the first of more than 40 volumes in his wildly popular Discworld series of satirical fantasy stories.

Twoflower was a tourist, the first ever seen on the Discworld. Tourist, Rincewind decided, meant idiot.Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. It plays by different rules. Certainly it refuses to succumb to the quaint notion that universes are ruled by pure logic and the harmony of numbers.But just because the Disc is different doesn't mean that some things don't stay the same. Its very existence is about to be threatened by a strange new blight: the arrival of the first tourist, upon whose survival rests the peace and prosperity of the land. But if the person charged with maintaining that survival in the face of robbers, mercenaries and, well, Death is a spectacularly inept wizard, a little logic might turn out to be a very good idea...

The Color of Magic is Terry Pratchett's maiden voyage through the now-legendary land of Discworld. This is where it all begins? with the tourist Twoflower and his wizard guide, Rincewind.

This title, which launched the legendary Discworld series, introduces the tourist Twoflower and his wizard guide, Rincewind. Part of a reissue of the first three Discworld books, this novel includes an overview of the fantasy land, with a map, visitor's guide, and Pratchett crossword puzzle.

A slightly disorganized and somewhat naive interplanetary tourist named Twosome joins up with a bumbling wizard and embarks on a chaotic voyage through a world filled with monsters and dragons, heroes and knaves

'His spectacular inventiveness makes the Discworld series one of the perennial joys of modern fiction' Mail on Sunday \_\_\_\_\_ Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell like our own, but which looks completely different. Particularly as it's carried through space on the back of a giant turtle (sex unknown). If you're new to the Discworld don't worry, you're not alone . . . Twoflower is the Discworld's first tourist, he's exceptionally naive and about to get himself into an array of dangerous and fantastical situations on his travels. And if that didn't sound fateful enough, it's the spectacularly inept wizard, Rincewind who is charged with safely chaperoning Twoflower and his Luggage (a walking suitcase that has half a mind of its own and a homicidal attitude to anything threatening) during his visit. Safe to say chaos ensues... \_\_\_\_\_ The Discworld novels can be read in any order but The Colour of Magic is the first Discworld book. It is also the starting point in the Wizards collection, followed by The Light Fantastic.

Imagine a flat world, sitting on the backs of four elephants, who hurtle through space balanced on a giant turtle. The Discworld is a place (and a time) parallel to our own - but also very different. That is the setting for Terry Pratchett's phenomenally successful Discworld series, which now celebrates its 25th anniversary. The Discworld Graphic Novels presents the very first two volumes of this much-loved series in graphic novel form. First published fifteen years ago, these fully illustrated versions are now issued for the first time in hardback. Introduced here are the bizarre misadventures of Twoflower, the Discworld's first ever tourist, and possibly - portentously - its last, and his guide Rincewind, the spectacularly inept wizard.Not to mention the Luggage, which has a mind of its own.

This is how the Discworld began. Here is the sapient pearwood Luggage, a mobile trunk which launders any clothes put in it and incidentally homicidally defends its owner. Here is Twoflower, an innocent tourist in a world of nightmares and fairy tales

In a distant and second-hand set of dimensions, in an astral plane that was never meant to fly . . . Imagine a flat world sitting on the backs of four elephants who hurtle through space balanced on a giant turtle. The Discworld is a place (and a time) strikingly parallel to our own—but also very different. But also very similar. To commemorate the twenty-fifth anniversary of the birth of the Discworld, the first two volumes of the remarkable Terry Pratchett's equally remarkable—and phenomenally successful—series were made available together, right here, in graphic novel form. These beautifully illustrated renditions of The Colour of Magic and The Light Fantastic show and tell the bizarre misadventures of the spectacularly inept wizard Rincewind and Twoflower, Discworld's very first—and possibly, portentously its very last—tourist. Not to mention the Luggage, which has a mind of its own. And teeth.
