Scientific Essay from the year 2013 in the subject Communications - Journalism, Journalism Professions, language: English, abstract: The purpose of this essay is to analyse advantages and disadvantages of using newspapers as historical sources. This study includes the analysis of the quality of newspaper information, the value of letters to editor, the importance of newspaper photographs and the digitisation of newspaper. Also, this essay analyses the bad impact of censorship on newspaper information and the negative effect of commercial force on news products. In the past few decades, using newspapers in historical research has been a debatable topic among scholars. Some historians believe that the press has a great value to be used as a historical source. However, others think that newspapers are unreliable sources to be used in historical research. With the development of technology and its impact on human's daily life, newspapers, as a periodical publication including regular information and comment on foreign and domestic political events, containing a substantial proportion of their content, and appearing at least once a week, have changed. In contrast to other types of culture products such as books, documents, letters, novels and others that have been used by historians as historical sources.

Local newspapers can hold back the rising tide of political division in America by turning away from the partisan battles in Washington and focusing their opinion page on local issues. When a local newspaper in California dropped national politics from its opinion page, the resulting space filled with local writers and issues. We use a pre-registered analysis plan to show that after this quasi-experiment, politically engaged people did not feel as far apart from members of the opposing party, compared to those in a similar community whose newspaper did not change. While it may not cure all of the imbalances and inequities in opinion journalism, an opinion page that ignores national politics could help local newspapers push back against political polarization.

Are newspapers faced with an existential threat or are they changing to meet the challenges of a digital world? With the newspaper's role in a state of fundamental redefinition, *Newspaper Journalism* offers a timely and up to the minute analysis of newspapers today, in the context of their historical importance to society. Drawing on their extensive experience in academia and also across local, national, mainstream and alternative newspapers, Cole and Harcup write clearly and engagingly from both industry and scholarly perspectives, and contend that, far from dying, newspapers are doing what they have always done: adapting to a changing environment. This text is essential reading for all students of the press, with comprehensive and critical coverage of the most important debates in the study of newspaper journalism - from ethics and investigative journalism to political economy and the future of the industry. Given the shifting boundaries and central importance of newspapers, it will be of interest to all students of journalism and the media. Praise for the *Journalism Studies: Key Texts* series: 'It is easy to describe a good textbook for a specific journalistic format... The ideal book has to satisfy a list of requirements that are also bullet-pointed in journalism assignment outlines. A text has to: synthesize the existing body of knowledge; explain concepts clearly; have a logical order of topics; and provide enough information and directions to pursue further study. One may also hope it would include real life examples and be lucid, vivid and a pleasure to read. Hard to find? Not anymore. The new SAGE series *Journalism Studies: Key Texts* satisfies the main requirements on the list. Carefully planned and meticulously edited by Martin Conboy, David Finkelstein and Bob Franklin, the textbook series is a welcome contribution to the literature of journalism studies... All three books follow the same structural template: an overview of historical development; explication of the political and economic frameworks within particular types of journalism; a review of contemporary practices; social demographics; a comparative analysis of practices around the world; a summary of main conceptual approaches; an indication of future directions; recommendations for further reading. This strong organization resembles a template for a course outline. This is intentional because the series is aimed both at students and their practice-based lecturers, who often come straight from industry and need time to adjust to the academic environment... [The series] achieves its aim to bridge the sometimes too evident dissonance between journalism theory and practice... They successfully situate discussions about journalism in social and historical contexts. We see the faces of individual journalists, the circumstances of news production, the relationship with owners, the battle between the public service and the profit nature of news, the relevance of journalism work. The detailed account of the conditions under which newspaper, radio and alternative journalism is produced and performed make the *Journalism Studies: Key Texts* series mandatory reading for both journalism students and their lecturers' - Verica Rupar, *Journalism Studies*
