A biographical history of the Romans who conquered and dominated Britain, based on the latest archaeological evidence and original source material. Here are the stories of the people who built and ruled Roman Britain, from the eagle-bearer who leaped off Caesar's ship into the waves at Walmer in 55BC to the last cavalry units to withdraw from the island under their dragon standards in the early fifth century AD. Through the lives of its generals and governors, this book explores the narrative of Britannia as an integral and often troublesome part of Rome's empire, a hard-won province whose mineral wealth and agricultural prosperity made it crucial to the stability of the West. But Britannia did not exist in a vacuum, and the authors set it in an international context to give a vivid account of the pressures and events that had a profound impact on its people and its history. The authors discuss the lives and actions of the Roman occupiers against the backdrop of an evolving landscape, where Iron Age shrines were replaced by marble temples and industrial-scale factories and granaries sprang up across the countryside.

Additional coverage of study areas ensures that this series can be used to teach the complete specifications for history at KS3. It is intended to raise student's interest in history and encourage the use of their critical historical skills. The accompanying teacher resource material is designed to ease the pressure of lesson planning.

The second volume of the articles originally published in the Barnoldswick and Earby Times. Readable and informative history and opinion. Fully illustrated with over 180 photographs.

An historical study of piracy in the ancient Greek and Roman world.

"A must for anyone interested in the Roman Empire and its impact on world history." —Tony Robinson star of Blackadder and Time Team. This entertaining and informative guide introduces readers to the amazing world of ancient Rome and its emperors, epic wars, awesome architecture, heroes, and villains. With a complete rundown of Roman history alongside fascinating insights into the lives of everyday Romans, readers will discover the amazing people and events involved in the rise and fall of one of the greatest of all ancient civilisations and how its influence can still be felt around the world today. Guy de la Bédoyère is a historian, archaeologist, and Roman expert, he is well known for his numerous books and appearances on TV, especially Channel 4's Time Team.

The Roman army was one of the most astounding organizations in the ancient world, and much of the success of the Roman empire can be attributed to its soldiers. Archaeological remains and ancient texts provide detailed testimonies that have

allowed scholars to understand and reconstruct the army's organization and activities. This interest has traditionally worked in tandem with the study of Roman frontiers. Historically, the early imperial period, and in particular the emergence of the frontiers, has been the focus of research. During those investigations, however, the remains of the later Roman army were also frequently encountered, if not always understood. Recent decades have brought a burgeoning interest in not only the later Roman army, but also late antiquity more widely. It is the aim of this volume to demonstrate that while scholars grappling with the late Roman army may want for a rich corpus of inscriptions and easily identifiable military installations, research is revealing a dynamic, less-predictable force that was adapting to a changing world, in terms of both external threats and its own internal structures. The dynamism and ingenuity of the late Roman army provides a breath of fresh air after the suffocating uniformity of its forbears. The late Roman army was a vital and influential element in the late antique empire. Having evolved through the 3rd century and been formally reorganized under Diocletian and Constantine, the *limitanei* guarded the frontiers, while the *comitatenses* provided mobile armies that were fielded against external enemies and internal threats. The transformation of the early imperial army to the late antique army is documented in the rich array of texts from the period, supplemented by a perhaps surprisingly rich archaeological record.

England's coastal zone contains an important legacy of historic assets, including a complex array of fragile and irreplaceable archaeological remains. This report documents the recorded coastal archaeological resource and identifies future themes for survey and investigation.

The Peddars Way and Norfolk Coast Path National Trail is an easy-to-follow 130-mile trail that combines the best of inland and coastal walking in Norfolk, and one that, being well waymarked, largely flat and within easy reach of public transport for most of its length, is ideal for people new to long-distance walks. Described in 11 stages, the route can be walked in just over a week but also easily split into day walks or over a series of weekends, with full information about access to start and finish points for each stage by public transport. This handy guidebook is illustrated throughout with extracts of OS 1:50K mapping and stunning photographs depicting the Trail in all seasons and describes points of interest along the way, including the Norfolk Songlines sculptures, and also facilities available in the towns and villages. The trail is a walk of two halves. The Peddars Way begins at Knettishall Heath in Suffolk and follows the route of an old Roman road for over 40 miles to Holme-next-the-Sea, where it meets the Norfolk Coast Path (which begins nearby, at Hunstanton). This then follows the spectacular Norfolk coast to the seaside town of Hopton-on-Sea.

When all her islands are taken into consideration, the British coastline spans almost 8,000 miles, which is longer than both Brazil's and Mexico's. From the clear blue waters of serene Cornish bays to the tempestuous seas around rugged Pembrokeshire headlands, this new book journeys around the varied shorelines of England and Wales to complete the most comprehensive survey ever taken. Stuart Fisher, bestselling author of the similarly comprehensive Canals of Britain, visits all the places of interest along the entire coastline of England and Wales: from remote countryside to modern cities,

Download Free The Roman S Forts Coastal Defences Of Southern Britain

exploring history and heritage, striking architecture and dramatic engineering, wildlife, wonderful flora and fauna, art and literature. His journey takes him from industrial hubs to small villages and fishing communities, providing a keen insight into what makes each stretch of Britain's shoreline unique and special. Evocative and often dramatic colour photographs help capture the great variety of the coast, and maps, book covers, stamps and local artefacts help convey the character of each area. This comprehensive and absorbing survey is a treasure trove of interest and knowledge for walkers, cyclists, boaters, holidaymakers and indeed anyone with an interest in coastal Britain.
