Unmasking Biblical Faiths aims to address many of the challenges to traditional Christian faith in the modern world. Since the eighteenth-century Age of Enlightenment, human reason, formerly tethered by the constraints of organized religion, has been set free to explore the universe relatively unchallenged. The influence of the Bible, on the other hand, weakened due to the successes of modern historical criticism, is found to be inadequate for the task of enabling the faith 'once for all delivered to the saints' (Jude 3), in that it cannot adequately respond to the many questions about religious faith that human reasoning raises for modern human beings. In a series of short but tightly reasoned essays, Charles Hedrick explores the confrontation between traditional Christian faith and aggressive human reason, a conflict that is facilitated by Western secular education.

Approaching the Bible in an original way--comparing biblical heroes to heroes in world literature--Elliott Rabin addresses a core biblical question: What is the Bible telling us about what it means to be a hero? Focusing on the lives of six major biblical characters--Moses, Samson, David, Esther, Abraham, and Jacob--Rabin examines their resemblance to hero types found in (and perhaps drawn from) other literatures and analyzes why the Bible depicts its heroes less gloriously than do the texts of other cultures: * Moses founds the nation of Israel--and is short-tempered and weak-armed. * Samson, arrogant and unhinged, can kill a thousand enemies with his bare hands. * David establishes a centralized, unified, triumphal government--through pretense and self-deception. * Esther saves her people but marries a murderous, misogynist king. * Abraham's relationships are wracked with tension. * Jacob fathers twelve tribes--and wins his inheritance through deceit. In the end, is God the real hero? Or is God too removed from human constraints to even be called a "hero"? Ultimately, Rabin excavates how the Bible's unique perspective on heroism can address our own deep-seated need for human-scale heroes.
