The Unit 1 Assessment contains multiple choice, extended response, and one response question that consists of several parts. The assessment has a variety of low level, moderate level, and high level questions which prepares them for standardized testing later in the year. I created the assessment based on the lessons that were taught in unit 1.

"4 realistic practice tests + 1 full-length diagnostic test."

Building Vocabulary from Word Roots provides a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Over 90% of English words of two or more syllables are of Greek or Latin origin. Instead of learning words and definitions in isolation, students learn key roots and strategies for deciphering words and their meanings across all content areas. Building Vocabulary from Word Roots: Level 4 kit includes: Teacher's Guide; Student Guided Practice Book (Each kit includes a single copy; additional copies may be ordered in quantities of 10 or more); Assessments to support data-driven instruction; and Digital resources including modeled lessons, 50 bonus activities, and more.

This practical coursebook introduces all the basics of modern syntactic analysis in a simple step-by-step fashion. Each unit is constructed so that the reader discovers new ideas, formulates hypotheses and practises fundamentals. The reader is presented with short sections of explanation with examples, followed by practice exercises. Feedback and comment sections follow to enable students to monitor their progress. No previous background in syntax is assumed. Students move through all the key topics in the field including features, rules of combination and displacement, empty categories, and subcategorization. The theoretical perspective in this work is unique, drawing together the best ideas from three major syntactic frameworks (minimalism, HPSG and LFG). Students using this book will learn fundamentals in such a way that they can easily go on to pursue further study in any of these frameworks.
